Subject: RE: Presumptive tolerance violation

Date: Friday, December 12, 2014 10:22:56 AM

Hi David,

I asked Shanker to send this along, even though it is just one finding. We discussed this at a chemist's meeting and thought we should communicate it ASAP to you given the concern over watermelon. If you don't want to see these results, please let me know – you'll eventually see it in the monthly reports that Jan sends – probably in the next one!

Thanks, Diana

Thank you. I will work up a CSA (commodity specific analysis) now. That is where we see if there would be a health concern with one serving.

I will be in touch.

David

Yes, David.

Methamidophis @ 0.018 ppm (LOD/LOQ 0.005 ppm). Thanks

Was there methamidophos also detected on that sample? Just curious?

Hi David,

FYI. Please see below a violation:

PDP Sample ID: NC1407090509WMWA1B

Country: USA

Commodity: watermelon

Pesticide Detected: Acephate @ 0.084ppm; LOD 0.03 ppm; EPA tolerance 0.02 ppm.

Let me know of you have questions. Thanks
